

Prime Industrial Components LLP

AN ISO 9001:2015 Certified Company

www.primebrassparts.com

We are a progressing firm engaged in the manufacturing and exporting of brass components and fasteners. Set up in the year 2001, in Jamnagar, we boast of offering supreme quality brass components. With the objective to cater to the exact requirements of the customers, we are providing brass turned or punched components as per customers specifications and drawings.

Research & Development

We believe that to cater to the fast-changing and growing demand one requires to remain updated about the latest market trends. The R&D department that we possess strive hard to offer innovative and better quality products. They ensure that we are well-equipped with latest methodologies and technology that would help us to keep pace with the changing market scenario.

Our R & D professionals incessantly conduct research works to develop newer and improved manufacturing techniques that would yield optimal output. The separate fund for this department has been allocated to allow them to carry extensive research smoothly that might lead to productive results.

Client Satisfaction

Our endeavor for providing the best-engineered products and services to our clients are aimed to fulfill the highest level of customer satisfaction through the influx of quality control measures in all the areas of operation. Our client's inputs are strictly considered before designing our products and prevailing market trends are also incorporated accordingly. Our customized solutions and installation services further give us an edge over other competitors. Receiving of repetitive order from our existing clients marks our efforts on customer satisfaction.

Why Us?

Since our incorporation in this industry, we have been steady in providing the superior quality array of products in accordance with the requirements of our clients.

Following are some of the factors:

- Strong focus on quality compliance
- Easy mode of payment
- Timely delivery
- Customized Product

Brass Insert

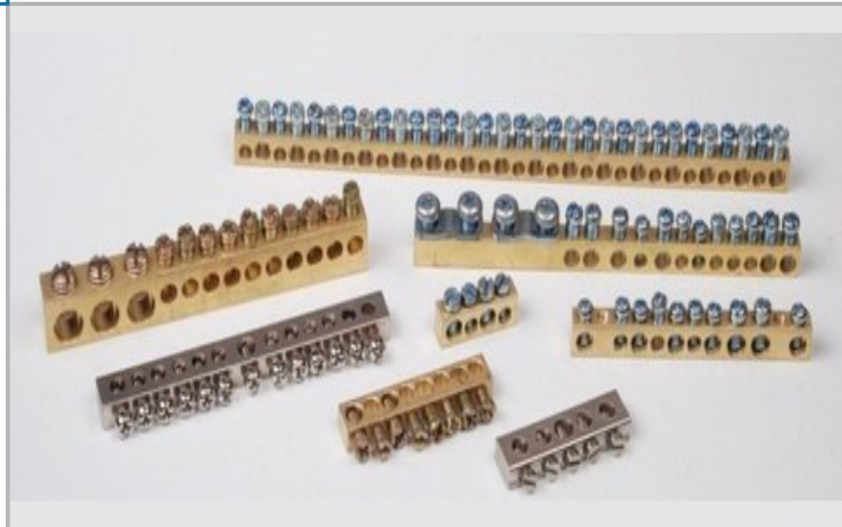

Precision Brass Turned Components
